BRAINERD, MINNESOTA, SATURDAY, MARCH 17, 1917

Price Two Cents

## TRAINMEN READY OBEY STRIKE ORDER OPINION STRIKE WILL NOT TAKE PLACE

### KING WINTER HAS STRIKE ALL HIS OWN

**Completely Ties up Railway Traffic  
In and Out of Brainerd, Not a  
Train out Last Night**

**Trains from Duluth, Staples and St. Paul An-  
nulled Last Night--St. Paul Passen-  
ger Stuck Clear Lake**

King Winter declared a strike of his own Friday and effectually stopped train service into and out of Brainerd.

On St. Patrick's Day this morning there is snow all around. Country roads are blocked.

All trains from west, east and the south were annulled Friday night and only the Minnesota & International passenger train limped into town early this morning and was here still in the morning unable to continue on to St. Paul.

Down at Clear Lake below St. Cloud lodged in heavy drifts was the St. Paul Northern Pacific passenger train due in Brainerd last night.

The Morris branch, as usual, plugged up early and the Morris train was stuck two miles out of town.

Friday afternoon the St. Paul passenger train pulled by two engines, first engine equipped with a snow plow, bucked the drifts below Fort Ripley half an hour before a path could be pierced through.

The old reliable M. & I. freight pulled out on time this morning.

With a railway strike called for Sunday, the coal situation is of interest. It is reported the Northern Pacific has on hand in Brainerd two carloads and one dongola of coal, not a plethora of fuel by any means.

Notices posted at the depot offer telegraph operators double pay if they will stay at their posts.

#### HOURS OF LABOR.

Hard Work With No Time Limitations the Road to Success.

It seems to be established on purely physiological grounds that eight hours of hard work each day is about all the average person's system will stand and maintain its normal efficiency. This conclusion has been reached after exhaustive and protracted scientific investigation without any regard whatsoever for legislative aspects and based upon the measurements of nervous and muscular exhaustion produced by work.

This eight hour limitation rule, it should be remembered, applies to the average person. But apparently no person has ever risen above mediocrity whose physical condition restricted him to such a limited period of work as one hour out of every three. "It is a noteworthy fact," says a writer in Science, "that with the world's leaders in industry, in finance, in professional life, the duration of the daily task is wholly secondary to its accomplishment. They are limited by no eight hour, ten hour or twelve hour considerations. This indicates why such men become leaders. Laborers may learn a valuable lesson from this fact."

"The greedy employer who saps the energies of those who are the medium by which he gains his wealth is to be condemned no more than is the 'black-er' whose only guiding principles are a minimum of effort and a maximum wage. Moreover, it is true to say that the obligation rests upon the laborer that rests upon all men, so to use his free hours as to benefit himself, his family and society."

It is the belief of most physicians that few persons are ever injured by hard work alone, either mental or physical.

#### Alcohol and Marksmanship.

It is stated that experiments made by the Bavarian ministry of war have shown that even a slight amount of alcohol exerts a very unfavorable effect upon rifle shooting. Tests were made with the firing of over 30,000 shots, and it was found that men who had been given forty grams of alcohol or about a pint and a half of beer registered from 3 to 10 per cent fewer hits than those who had taken no intoxicants.

### Minnesota Senate Debating Strike Resolution

(By United Press)  
St. Paul, March 17—The Minnesota senate is debating a resolution calling on the brotherhood chiefs to withdraw the strike order.

### Receivers Demand Federal Protection

(By United Press)  
Chicago, March 17—Receivers of the Rock Island and Chicago & Eastern Illinois railroads appeared in the federal court and demanded federal protection. Both receiverships are federal.

### Villa Occupies Santa Rosalia

(By United Press)  
El Paso, March 17—Villa has occupied Santa Rosalia. It is reported, General Murguia is fortifying Chihuahua City against an expected Villa attack.

### Unrest in Germany Against Militarism

(By United Press)  
Amsterdam, March 17—Unrest in Germany against militarist repression has been accelerated by the success of the Russian revolution.

#### LIFE OF THE WORLD.

Traditions That It Will Last Only 6,000 Years.

There is a general and widespread notion, which the curious investigator will find scattered throughout both medieval and modern literature, that the world will last 6,000 years from the date of its creation. An inscription in one of Martin Luther's books reads as follows: "Elijah, the prophet, said that the world had existed 2,000 years before the law was given (from Adam to Moses), would exist 2,000 years under the Mosaic law (from Moses to Christ) and 2,000 years under the Christian dispensation, and then it would be burned."

In the Etrurian account of the creation (by Suidas) there is a similar tradition. "The Creator spent 6,000 years in creation, and 6,000 more are allotted to the earth."

In the black letter edition of Foxe's "Acts and Monuments" (1632) there is a whole sermon given with the 6,000 year limit of the earth's duration as a text.

Some writers contend that the "six days" referred to in Holy Writ really mean 6,000 years and that the "seventh day" is a type of the coming millennium, or "Sabbath of a thousand years."

The psalmist says, "For a thousand years are in thy sight as yesterday" (Psalm xc, 4). See also II Peter III, 8, which is even more specific.

#### His System.

Woman—Here are some bread and butter, creamed chicken, chocolate cake and a glass of water.

Tramp—Never mind de water, mum! Water is fattening, and I'm trying to reduce!

\*\*\*\*\*  
MICHAEL WON'T TAKE  
THRONE UNLESS ELECTED  
(By United Press)  
Petrograd, March 17—In declining the throne, Grand Duke Michael appealed to the people to obey the provisional government until the vote of the people showed whom they preferred. His acceptance was conditioned only upon the plebiscite.  
\*\*\*\*\*

### ROMANOFF RULE ENDED NEW ERA FOR RUSSIA

(By United Press)  
Petrograd, March 17—Romanoff rule is ended and Russia begins a new era as a democracy. The Czar Nicholas has formally abdicated with the Czarovich. The Grand Duke Michael named as regent refused the crown. Order is being restored.

### British Government Dealing With Duma's Defacto Government

(By United Press)  
London, March 17—The British government is dealing with the committee of the Duma de facto Russian government.

### Czarevich Reported Dead with Fever

(By United Press)  
London, March 17—An unverified report says that the Czarovich, Grand Duke Alexis and 13 others are dead with scarlet fever.

### Not a Shot Fired in Moscow

(By United Press)  
London, March 17—Moscow accomplished the change from autocracy to democracy without a shot being fired. The city was orderly at all times.

\*\*\*\*\*  
WILSON BELIEVES  
WILL BE NO STRIKE  
TAKING PRECAUTION  
(By United Press)  
Washington March 17—President Wilson believes there will be no strike but is taking precautions and studying the leading precedents, and the impression is that the president will be able to bring strong stress to stop the strike, but whether he could put the railroads under full martial law is uncertain.

There is a possibility that the supreme court will decide the Adamson case Monday.  
\*\*\*\*\*

### TRAFFIC DEADLOCKED CHICAGO TRAINMEN READY TO STRIKE

(By United Press)  
Chicago, March 17—With freight traffic here deadlocked by blanket embargoes by nine roads and partial embargoes on others, the trainmen here are ready to obey the strike order today. Daniel C. Smith, chairman of the switchmen, stated his organization will ignore the strike order and stick. The city plans to have 200 extra police. The national guard will be called if needed, and the government will prosecute food speculators taking advantage of the crisis.  
\*\*\*\*\*

### ENGINEERS ASK FOR INJUNCTION TO RESTRAIN OFFICERS CALLING STRIKE

(By United Press)  
Philadelphia, March 17—Twenty-eight members, officers of the Grand International Brotherhood of Locomotive Engineers, have filed an injunction suit in the United States district court to prevent the brotherhood chiefs from calling a general strike.  
\*\*\*\*\*

\*\*\*\*\*  
THE ENGLISH HAVE  
CAPTURED BAPAUME  
(By United Press)  
London, March 17—Bapaume, the key of the German defense against which General Haig has been hammering on the western front, has been captured.  
\*\*\*\*\*

### ZEPPELIN CAME DOWN THE CREW WAS BURNED

(By United Press)  
Paris, March 17—A Zeppelin returning from England came down in Compiègne, the crew being burned. This was one of several flying over the town and dropping bombs.

### FRENCH REPORT GAIN OF 2 AND ONE HALF MILES

(By United Press)  
Paris, March 17—A gain of two and one half miles north of Avre is announced.

### Great Decrease in Exports and Imports

(By United Press)  
Washington, March 17—American exports and imports decreased almost \$190,000,000 in February, the largest loss ever reported in a single month.

### Situation is Very Hopeful

(By United Press)  
New York, March 17—"The situation is very hopeful," Secretary Lane said this afternoon.

### Opinion is that will be no Strike

(By United Press)  
Washington, March 17—The contention here is that there will be no strike, that it will not go into effect. President Wilson is waiting at the White House for word from the New York conference.

### IRELAND AND IRISH LAUDED BY ORATOR

**Rev. P. J. Ryan, of Duluth, Praises  
Irish Art and Learning, Patriotism  
and Virtues**

**Blood of Martyrs of 1916 Welded Ireland Closer  
Than Ever Before, Language of  
the Gael is Spreading**

Rev. P. J. Ryan of Duluth, St. Patrick's Day orator at the entertainment given by St. Francis Catholic church sodality, in glowing language praised Ireland, her striving for freedom, traced her history and aims and said home rule was the goal of every Irishman. He said in part:

\*\*\*\*\*  
"From our blood shall arise  
men who shall stand up for Ireland and for freedom," cried the martyrs who gave up their lives when the Irish republic was proclaimed Easter Monday, April 23, 1916.  
"They saw Ireland was becoming more Anglicized every day. Those men saw Serbia fall, Belgium overrun, Poland taken, the submarines blowing up English shipping and they believed the time ripe for an Irish republic."  
"And today Ireland is closer welded by the blood of those martyrs than ever before. The language of the Gael is spreading everywhere. The time is coming when Ireland will be free and independent, foremost in the arts and learning." Hearty applause was given the speaker of the evening.  
"The Poor Butterfly," a solo and chorus was presented by the Misses Helen Klebler, Gertrude Smith, Alice Smith, Odella Koop, Madge Murphy, Marie Gibson and Mrs. Teresa Toohy. They were gowned in pretty dresses of pink, green, blue and other colors and danced and sang divinely.

Professor William Graham played a cornet solo, a medley of Irish melodies.  
The "Kerry Dance" was given in costume by the Misses Mildred O'Brien, Gladys Blais, Leona Maghan, Aileen O'Connor, Irene Gartner, Stella Houle, Helen Mraz and Irene Turcotte. They were very pretty dresses and danced admirably.

Miss Helen Klebler was in splendid voice and sang "An Irish Lullaby," her piano accompaniment being played by Miss Frances Quinn. She was applauded so much she gave an encore.

The number which drew tremendous applause was the Irish jig given by a band of young people dressed in old time costumes in which green was a prevalent note. Those taking part were Lucille O'Connor, Alice O'Brien, Angela Untereker and Masters John Taylor, Gregory Mraz, E. T. O'Brien, Leo McGill, Arthur Larkin and Misses Anna Roring and Fern Betzold.

The accompanists were Miss Frances Scallion and Miss Frances Quinn.  
In spite of the inclement weather there was an attendance of 300 or more in the Knights of Columbus hall and all who participated in the program acquitted themselves with great credit and contributed to make of it a most enjoyable St. Patrick's Day entertainment.

#### POISON GAS BEETLES.

Fumes With Which Bombardiers Keep Their Enemies at Bay.

Most people think that the use of poison gas in warfare is a purely human, or perhaps one should say inhuman, idea. Yet the plan has been adopted by nature. Certain kinds of beetles known as bombardiers and called by scientists Brachinus make free use of poisonous fumes to keep their enemies at bay.

A typical species known as Brachinus crepitans is largely attached to certain ground beetles. These ground beetles are very active and can easily overtake the bombardiers. Just as they get within reach, however, a very strange thing happens. The bombardier has the power of ejecting a peculiar liquid, which, when it comes into contact with the atmosphere, bursts into a sort of pale green flame. This is immediately followed by a kind of smoke.

Now, this smoke has a remarkable effect upon the pursuer. No sooner do the fumes come into contact with the ground beetle than the creature is blinded and stupefied. A strange paralysis overtakes the insect, and it seems unable to move any farther. Quite a while elapses before the ground beetle recovers. In the meantime the bombardier makes good his escape—American Boy.

#### The Hint That Failed.

Caller (waiting for an invitation)—Two o'clock! I fear I am keeping you from dinner. Hostess—No, no; but I fear we are keeping you from yours.—Boston Transcript.

### What the Indiana Cyclone Did to Cincinnati, Ohio

The cyclone which originated in New Castle, Ind., Sunday afternoon, swept on southeast toward Cincinnati, with the result shown here. Three persons were killed in Cincinnati, in the section known at Hyde Park. The photograph at the left shows the Scheidmante home on Delta avenue and the remains of other houses. That to the right

shows the Glenn home as left after the storm. In the foreground is a wall of a costly house, all that was left of it.

B. E. Dunham did the electrical wiring and installed the fixtures in the new Ideal Cafe.

Special for young men, 50 foot lots \$1.00 a week. Nettleton. 2421f

Deerwood visitors in town were Mr. and Mrs. A. W. Miller, Mrs. L. J. Alberts and Miss Helga Theorin.

C. W. Hilton, expert Piano Tuner, phone evenings 692-M-2. 2211f

The Misses Hazel and Jennie Keller and their mother, Mrs. V. H. Keller of Merrifield, visited in the city today.

Why not return at Easter the Xmas greeting by sending one of those artistic photos of yourselves taken at Canan's Studio. 24113

Rev. Renius Johnson has gone to Wadena where he will officiate at the funeral of Mrs. Karin Persson, age 91.

Neil McKay, of Libby, was in the city. He is the caretaker at the Sandy lake dam and for 25 years was at Cross Lake.

If you can't afford a house, start with a lot now, will help get house, garden and chickens later. Nettleton. 24013

The people who have decided to find new houses or apartments this spring are watching the classified want ads these days.

Slipp-Gruenhagen Co. have secured the contract for electrical wiring of the First State bank of Pine River to be built this spring.

Mrs. T. B. McTague, of Duluth, is a guest of her parents, Mr. and Mrs. James S. Gardner, and brother, Senator George H. Gardner.

You cannot decide blindly if you wish to act wisely. Learn about real estate before buying. Read and investigate the want ads.

H. B. Blackwood, of the Brainerd Plumbing & Heating Co., has the government contract for plumbing at the Gull lake dam station.

For Sale—Fifty level lots, near Lowell school, N. E. Brainerd, \$50.00 to \$100.00 each. Before you buy, let me show you some good locations. First buyers get selections. Easy terms. Jas. R. Smith, Sleeper Block. 2411f

Joseph Rubin, superintendent of the Brainerd Model Laundry, returned this noon from Ironton. He saw the Bemidji-St. Cloud game at Crosby

Fire at the Central hotel at 3 P. M. today was caused by a cigar setting fire to a mattress. About \$12 damage was done. Mr. Holden extinguished it.

P. B. Nettleton has suggested a special meeting of the Chamber of Commerce to thank all who took part in the defeat of the "super tax iron ore bill," otherwise known as the tonnage tax bill.

I will sell large 50 foot lots from \$50 to \$100 tributary to Lowell school, mill or shops. Will help you to get chickens, cow and buildings if needed. Choose from 100 lots in different parts of city. Terms on houses or lots that you can afford. Above offer good this month. Nettleton. 23914-w1

There is a good position for you, but it's not waiting for you. You must advertise for it, or somebody else will secure it. Use the Dispatch want ad column as your medium. Both telephones, Northwest 74 or Automatic 274.

Ida M. Hagberg, recorder of America Lodge, No. 45, Degree of Honor, today received a check for the beneficiary of Josephine Lanouette, just eighteen days from the time proof of death was handed in.

Following the Lead.

The Mother—Oh, dear! Fighting again, Charlie? Such a terrible black eye! If only you'd follow the lead of the minister's little boy—The Hopeful—I did try to follow his lead, but he led again with his left, and that's how he lifted me.—Pack.

Absurd.

"My husband has the queerest ideas of economy."

"Indeed!"

"Why, he actually seems to have an idea that I could save money by staying away from bargain sales."—New York American.

Siamese Music.

The Laos of northern Siam have an interesting reed instrument which is made up with fourteen bamboo or hollow reed pipes symmetrically arranged with a small air chamber and mouth-piece of turned wood or ivory. A tongue metal plate is inserted in a slit in each pipe, and the joints between the pipes and the air chamber are stopped with wax. The tone of this instrument is described as peculiarly sweet, and chords may be produced upon it.

**Notice of Mortgage Foreclosure Sale.**

Notice is hereby given that the certain mortgage executed by Charles J. Rathvon and Ellen Rathvon, his wife, as mortgagors to Christ Barrens, as mortgagee in the principal sum of Two Thousand Dollars, dated November 1st, A. D. 1906, recorded in the office of the Register of Deeds of Crow Wing County, Minnesota, on November 5th, 1906, at 10 o'clock A. M., in Book 2 of Mortgages on page 597, which said mortgage conveyed and mortgaged the following described real property situate in Crow Wing County, Minnesota, to-wit: Lots one (1) and two (2) of Block four (4) of Deerwood according to the recorded plat thereof on file in the office of the Register of Deeds in and for said County and State, which said mortgage was assigned by Wilhelm Bopp, formerly Wilhelm Bopp and August Barrens, only heirs at law of said Christ Barrens, deceased, as assignors to C. M. Patek and C. H. Patek, as assignees on August 19th, 1914, which said assignment was recorded in the said office of Register of Deeds on September 3, 1914, at 3 o'clock P. M., in Book 18 of Mortgages on page 281, the title to said mortgage being in said assignors at the time of said assignment, it being shown by a certified copy of a decree of the Probate Court of Crow Wing County, Minnesota, in the matter of the estate of Christ Barrens, deceased, recorded in said office of Register of Deeds on December 21st, 1909, at 9 o'clock A. M., in Book 23 of Deeds on page 216, which said mortgage was partially released by written partial release given by said C. M. Patek and C. H. Patek to said mortgagors, recorded in said office of Register of Deeds on October 16th, 1915, at 11 o'clock A. M., in Book 18 of mortgages on page 263, by which the north thirty-three (33) feet of said Lots one and two was wholly released from the lien of said mortgage and said mortgage satisfied as to said north thirty-three feet, will be foreclosed by a sale of all of said Lots one and two Block four, except the north thirty-three (33) feet thereof, which sale will be made by the sheriff of said Crow Wing County, or his deputy, at public auction, at the front (west) door of the Court House, in the City of Brainerd, in said Crow Wing County, Minnesota, on Wednesday, the 25th day of April, A. D. 1917, at ten o'clock in the forenoon of said day.

That there is due and claimed to be due on said mortgage at the date of this notice, the sum of Two Thousand Forty-two and 67/100ths Dollars (\$2042.67) and Twenty-five Dollars as attorney's fees as therein specified; and no action or proceeding at law or otherwise has been instituted to recover said amount.

Dated March 8, A. D. 1917.

C. M. PATEK,

C. H. PATEK,

Assignees of only heirs of mortgage, deceased.

W. F. WIELAND,

Attorney for Assignees of only heirs of Mortgage, Deceased.

"Crazy" Chamberlain "A good cough remedy is one that can be depended upon to cure coughs. Not one that cures some particular cough, but coughs in general.

It must be a cough remedy that can be relied upon for all the different coughs that are so prevalent. While the causes of all coughs are primarily the same, yet the condition of the patient is what makes the difference in the nature of the cough itself. Coughs of healthy persons are easier to cure than the coughs of invalids. The powerful convulsive cough of a large man is harder to cure than the cough of a baby. If you get a remedy that will cure a large man's cough and yet not be too powerful for the baby, you have a good cough remedy.

**Chamberlain's Cough Remedy**

is just this kind of remedy. It is good for any member of the family. It relieves coughs of all kinds. It is the product of much thought and study to produce an ideal cough remedy. It is composed of things which cure easily and soothingly without harming the most delicate tissues of the throat. It acts as easily and safely on the young as on the old, and is the ideal remedy for coughs, colds, croup, influenza, whooping cough and bronchitis.

Yours for Health — Graney Chamberlain

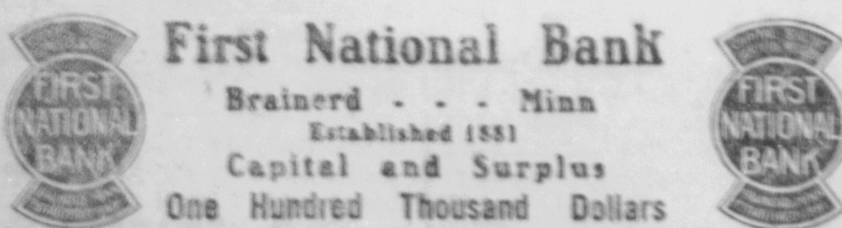

**PRINTERS' INK**

Has done more towards nursing a sick or stagnant business than any known remedy. To get the desired results one should learn the real value of this great commodity and its relative merits when employed in the right way.

**SAFETY FIRST**

Applies to saving a little money just as much as it does to watching out for an on coming automobile and passenger trains. You can practice safety first by starting a small weekly SAVINGS ACCOUNT. Start it TODAY.

## Colds Coughs Catarrh

A trinity of evils, closely allied, that afflict most people, and which follow one on the other, in the order named, until the last one is spread through the system, leading to many evils. But their course can be checked.

### PERUNA CONQUERS

It is of great value when used promptly for a cold, usually checking it and overcoming it in a few days. Ample evidence has proved that it is even of more value in overcoming chronic catarrh, dispelling the inflammatory conditions, enabling the diseased membranes to perform their natural functions, and toning up the entire system.

The experience of thousands is a safe guide to what it may be expected to do for you.

Liquid or tablets—both tested by the public and approved.

THE PERUNA COMPANY, COLUMBUS, OHIO

## MUSIC AND DRAMA

### "The Bird of Paradise"

One of the most heartily welcomed plays of the season is the appearance of Oliver Morosco's production of "The Bird of Paradise," that exotically colorful play of the Hawaiian Islands written by Richard Walton Tully, which will be seen for the first time at the Brainerd opera house Saturday evening, March 17.

"The Bird of Paradise" stands out in the memory amongst the plays a half a dozen seasons as something eminently different, a story of human love and degeneration poignantly touching, and set amidst a tropical scenery and tropical costumes as novel as they are glowingly picturesque.

The heroine of the play, which takes place in the nineties, is a beautiful young Hawaiian Princess named Luana, who has met and fallen desperately in love with an ambitious young American doctor, who reciprocates her passion, and for years has lived with her in a remote paradise in the island. He is discovered in this guise as "beachcomber" by some American friends, one of whom arouses the spark of manhood left in his breast, and persuades him to come back to civilization and engage in active work. Luana jealously insists upon accompanying her husband.

The long years of idleness and self-indulgence, however, have told so upon her husband that he is unable to do his work properly among his own kind, while the mere sight of white society has so turned him from and sickened him of Luana, who cannot learn new ways, that he throws her off. She returns under the escort of a deputation of natives who have been sent after her, and is sacrificed to her angry gods at the crater of a volcano, in expiation of her insults to them.

The story is vested with a singular

### OLD-TIME COLD CURE— DRINK HOT TEA!

Get a small package of Hamburg Breast Tea, or as the German folks call it, "Hamburger Brust Tee," at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teacup full at any time during the day or before retiring. It is the most effective way to break a cold and cure grip, as it opens the pores of the skin, relieving congestion. Also loosens the bowels, thus breaking up a cold.

Try it the next time you suffer from a cold or the grip. It is inexpensive and entirely vegetable, therefore safe and harmless.

## RUB RHEUMATISM FROM STIFF, ACHING JOINTS

Rub Soreness from joints and muscles with a small trial bottle of old St. Jacobs Oil

Stop "dosing" Rheumatism. It's pain only; not one case in fifty requires internal treatment. Rub soothing, penetrating "St. Jacobs Oil" right on the "tender spot," and by the time you say Jack Robinson—out comes the rheumatic pain. "St. Jacobs Oil" is a harmless rheumatism cure which never disappoints and doesn't burn the skin. It takes pain, soreness and stiffness from aching joints, muscles and bones; stops sciatica, lumbago, backache, neuralgia. Limber up! Get a 25 cent bottle of old-time, honest "St. Jacobs Oil" from any drug store, and in a moment you'll be free from pains, aches and stiffness. Don't suffer! Rub rheumatism away.

## WOMAN'S REALM

### WHERE TO WORSHIP

#### Swedish Methodist

Services at 10:45 a. m. No evening services. Rev. C. M. Holmberg, pastor.

† † †

#### Bethlehem Lutheran Church

(South Seventh Street)  
Norwegian services Sunday morning, English services Sunday evening. Miss Mabel Johnson will sing.

† † †

#### Peoples Congregational church

Sabbath school 10 a. m. Morning service 11 a. m. subject, "Plumb Line Religion."

Evening service 7:30 p. m. subject, "Reasons Given for not Joining Church." The choir will sing at both services.

† † †

#### St. Paul's Episcopal Church

Fourth Sunday in Lent.

10:30 a. m. holy communion and sermon. 11:30 Sunday school. 4:30 evening prayer and sermon. "Loyalty." In a time of crisis in national affairs there is one thing that is absolutely essential, the spirit of loyalty. Personal opinions and individual grievances must be put on one side for the moment in order that the country's welfare may be served. A study of the true meaning of loyalty will be made. All are welcome to the services.

† † †

#### Presbyterian Church

Morning worship and praise at 10:30 o'clock. The theme of the sermon will be "Feeling from God". The quartet will sing.

In the evening at 7:45 the sermon subject will be "Duties Attendant Upon the Second Coming of Christ." The evening chorus will sing. The chorus rehearsals are now held Sunday afternoons and Wednesday evenings.

The Christian Endeavor meets in the main room of the church at 6:45. The Sunday school at noon. All are invited to these services. W. J. Lowrie, pastor.

† † †

#### First Congregational

The services in the First Congregational church this Sunday will be as follows:

Morning worship 10:30. Sermon "God's Call to Europe and America's Response."

Special singing by the choir. Bible school, (all departments) at 11:45.

Vesper service 4:30. Sermon "The Revealed Things of God." The vested choir will sing a special selection from Gaul's Holy City entitled "Eye Hath Not Seen."

Young peoples meeting at 5:45. We cordially invite you to worship with us. Rev. G. Phil. Sheridan, Minister.

† † †

#### Christian Science

Christian Science society, Camel's hall, Iron Exchange building.

Sunday school at 10 a. m. Sunday service at 11 a. m. Wednesday evening testimonial meeting at 8 p. m. To these services all are welcome. Subject for Sunday, "Substance." Golden Text Prov. 12:27-28.

A Christian Science reading room is maintained in same building, room 215, second floor, which is opened to the public daily except Sundays and holidays, from 3 to 5 p. m. Christian Science literature is furnished for free distribution and also for sale.

A circulating library is maintained where all the works of Mary Baker Eddy and the Christian Science Publishing society may be borrowed free of charge.

† † †

#### Methodist Church

At 9:15 o'clock, the Beginners, Primary and Junior departments of the Sunday school will meet in the basement of the church.

At 10:30 morning worship. Sermon subject: "Walking in the Light" Rev. F. W. Hill, pastor. Music by the choir.

At 12 o'clock the Intermediate, Senior and Adult Departments of the Bible school will convene.

Epworth league at 6:45 o'clock. Topic, "Re-galvanizing Indifferent Members." President, William Brazier.

Evening service at 7:45 o'clock. Sermon subject, "The King's Highway."

All services will be held in the church basement. The work on the new church is progressing rapidly and most satisfactorily.

† † †

#### The Salvation Army

Holiness Assembly at 11 a. m. Company meeting (as) 3 p. m. Young Peoples Legion 6:30 p. m. Salvation Rally 8 p. m.

Subject for Holiness assembly, "On the Hill Top."

Subject for Salvation rally, "The Rivals."

At the Young Peoples Legion a contest will be started between the Colonels and the Majors. Mrs. Eva Brown and Miss Evelyn Chase will act as captain and Lieutenant for the Colonels and Mr. Alfred Daniels and Miss Bessie Carroll will hold like offices for the Majors. All are welcome to come and participate in this contest and help wage warfare against evil.

A cordial invitation is extended to the public and the stranger in our city to come and worship with us.

H. C. Belsham, captain.

### TAFFY PULL

Sophomore Class Has Enjoyable Time Last Evening, One Junior was Present

A taffy pull was given by the Sophomore class last night in the domestic Science room at the high school. Among those present were Mr. and Mrs. Dennison and Mr. and Mrs. Pfueghoeft. The taffy was made by Mrs. Hayes and considered by all as a great success. After the taffy had been duly attended to, games were played in the auditorium, everyone enjoying a very fine time. There was also one Junior present who can be called upon to verify the above statements.

HER REST ROBE.

Peach blossom satin, heavily corded at the bottom, gives this charming robe with its open drape of lace. What belted the waist line is a wreath of tiny spring flowers in pastel shades. Please note how the bejeweled part of the lace forms the berth.

### Uncle Sam's Belt.

The total area of the canal zone, which includes all the land and water within five miles on either side of the center line of the canal, but does not include the area within the three mile limit on the Atlantic and Pacific ends of the canal, is 441½ square miles, of which the land area is 332.35 square miles. The area of Gatun lake within the five mile limit is 196.4 miles, the area of Miraflores lake 1.9 miles and the area of the canal channel itself .85 mile. The area was given in 1911 as 448 square miles, which was correct at that time, but by a treaty proclaimed Feb. 18, 1915, an area of six and one-half square miles adjoining Panama city was ceded to Panama in exchange for two small tracts, one of them in the city of Colon, on which one of the defense batteries of the canal is situated. The same treaty gave the Panama canal administration control of all the waters of Gatun lake outside of the five mile limit and all land adjoining the lake up to the hundred foot contour line, adding sixty-one square miles to the 441½ miles within the zone, making the area of the canal zone and controlled territory 502½ square miles.—Christian Herald.

### What He Missed.

There's no use talking about it, when you get the public to the point where it understands one kind of art you ought to lead it by easy stages to the next higher variety. Don't spring it all at once on them. A few days ago we said to a friend of ours:

"Saw you going over to the Art museum yesterday. How did you like it?" "Oh, the pictures were pretty good," he answered, "but there weren't any jokes under them."—Cleveland Plain Dealer.

## THE VALUE OF FINE HIGHWAYS

Improve Social Conditions and Business Transactions.

### BETTER SCHOOL ATTENDANCE

A 15 Per Cent Increase in the Proportion of the Available Children Attending Schools Took Place Following Construction of Good Roads in Eight Counties.

A 15 per cent increase in the proportion of the available children attending schools took place following the construction of good roads in eight counties studied by the office of public roads and rural engineering of the department of agriculture, it is shown in a recent publication of the office. The improvement in roads was followed also in several of the counties, the report shows, by consolidation of a number of the little one room schools into graded schools, which give the pupils better educational advantages; by a development of various industries and by social improvements due to easier intercourse. These improvements are related closely to increases in land values and decreases in hauling costs, effects also traced to the construction of improved roads.

In Spotsylvania county, Va., the average daily school attendance increased from 57 per cent of the enrollment before the roads were improved to 77 per cent after. Several small schools were consolidated. Between 1909, the year preceding the building of good roads, and 1913, the year following their completion, the shipment of forest products, the principal products of the county, increased more than 78 per cent. The increase during this period in the poultry business in the county was 77 per cent and in dairying 110 per cent.

In Dinwiddie county, Va., the average daily attendance for children for thirteen schools on the improved roads was 63.4 per cent of the enrollment in

THE GRADED SCHOOL TAKES THE PLACE OF A NUMBER OF LITTLE ONE ROOM COUNTRY SCHOOLS.

1912-13, while the average attendance for all other schools in the county was 56 per cent. Several school consolidations have been effected, larger school buildings have been constructed, and pupils have been transported to school at the expense of the educational system since the road improvements were made. Truck gardening and dairying, which were profitable only within three miles of the principal market town of the county before the road improvement, are now carried on profitably within a seven mile radius.

In Lee county, Va., a considerable industry has been built up following the road improvements in the shipment of tanbark, extract wood and pulp wood, products which could not be profitably hauled over the unimproved roads. The improved highway system has attracted buyers of farm products who travel from farm to farm and furnish a new cash market for the farmers. There has been a 25 per cent increase in bugles sold by a county vehicle factory.

In Wise county, Va., social conditions have been bettered since the good roads were constructed, many farmers along the improved highways having built new homes or improved old ones, adding sanitary conveniences. School attendance has increased materially, but since compulsory attendance regulations went into effect about the time the improved roads were completed the influence of the two factors could not be determined separately. Several school consolidations have been made.

Automobile registrations in Franklin county, N. Y., increased from 371 before the road improvement in 1912 to 853 after road improvement in 1914, and two automobile bus lines connecting distant towns in the county were established as soon as the improved roads were opened.

There has been a notable stimulation of dairying and general diversification on the farms of Dallas county, Ala., since the improvement of the roads of that county.

In the section of Lauderdale county, Miss., where most of the roads have been improved, the school attendance increased from 72 per cent of the enrollment in 1912, just after the road work started, to 81 per cent in 1913, after the completion of the work. Several school consolidations have been effected.

## "He Profits Most Who Serves Best"

## Any Question of Medicines Should be Answered by US

Quite naturally we believe that there should be no doubt about what your prescriptions contain or how they are compounded. But how are you to know that the doctor's orders have been carefully followed, that the drugs used are as pure and good as may be had, and that degree of compounding has been guarded? Surely, you must take some druggist's word for it.

We think you can more safely leave this important work in our hands, because our already good reputation for conscientious prescription work and pure drugs should prove recommendation enough.

We do not know, nor care, what other druggists may do—but we do know that we employ every knowledge, and long experience, and exercise every care to fill every prescription exactly as suggested or ordered by any doctor.

## EARTH ROAD MAINTENANCE.

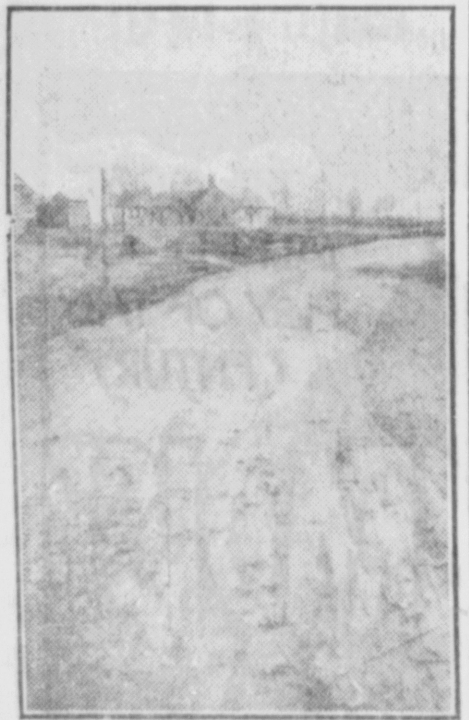

A Never Ending Job and Has to Be Done Over and Over.

Earth road maintenance now is and will continue for some years to be the real road problem of Kansas, since it is not likely that more than a very small per cent of the highways will be paved in this generation, asserts W. S. Gearhart, professor of highway engineering in the Kansas State Agricultural college and state highway engineer.

"Practically all the work done on an earth road, except reduction of grades, correction of horizontal alignment, building of drainage structures and elimination of railway grade crossings, is temporary and should properly be considered maintenance," said Mr. Gearhart.

"Doing permanent work is a comparatively easy matter, for when once it is done correctly it will last for a number of years. The maintenance of an earth road, however, is a never ending job. It is like milking the cows and doing other chores, for the builder knows that the work of maintenance will have to be done over and over again and can never feel that it is in any sense permanent.

"For this reason the earth road has a bad reputation. The trouble is not so

AN EARTH ROAD.

much with the material of which the road is composed as with our system or lack of system of management. Other types of roads, when treated as we treat the earth roads, are much more expensive and serve the traveling public little, if any, better. The vast improvement that can be made on our present earth roads by intelligent direction in their construction and maintenance is little realized by the public, and the serviceability of a properly maintained earth road is not appreciated when compared with other types of roads as to cost of construction.

"Successful construction and maintenance of any kind of a road depend upon the recognition by the public and the builders of a few fixed and fundamental requirements.

"One practical, well paid road builder should be made responsible for the upkeep of a certain section of road and should be employed throughout the year, his tenure of office being made dependent entirely upon the character of services rendered. The graded portion of the road should be elevated and crowned so that the water from every section of the road surface will flow into the side ditches."

## Bay State Road Improvements.

Expenditures for road improvements increased 205 per cent in Massachusetts in 1914 over expenditures ten years ago, according to road statistics made public recently by the department of agriculture. The Bay State spent over \$6,000,000, giving her a percentage of 45.53 surfaced roads.

Approximate expenditures for the other New England states were: Connecticut, \$2,640,000; Maine, \$2,642,000; New Hampshire, \$1,500,000; Vermont, \$1,024,000, and Rhode Island, \$445,500.

## OTHER PEOPLE'S OPINIONS

## The Issue

Ed. Dispatch:—The city campaign now on is recognized by all classes as an important occasion, and the ensuing election is looked forward to by all with more or less anxiety.

While there are not wanting those who would willingly keep the public mind in a muddle by keeping in view the complexity of issues which are known to exist, as, Republican, Democrat, Socialist, and Labor, Wet and Dry, Military and Anti-Military; Church and Imperial Finance, every one who thinks beneath the surface knows that the real issue in every body's mind is as to which of these groups of partisans shall have the controlling influence in the administration of the city affairs and the disbursing of the funds.

On the surface the talk and shouting for "community spirit," "higher civic ideals," etc., has been kept up so loud and long without fundamental change, such agitation has become mere common-place remarks, considered as having no more meaning than the average profanity.

Those who are talking "community spirit" the loudest, when it comes to a "show-down" in politics are more than willing to keep the voters in mind of partisan differences and imaginary efforts should certain partisans get in control to divert their minds rather than to have them concentrate their thoughts towards a clearer understanding of the city affairs from the standpoint of Social Justice.

The real issue in this campaign is by those on one side as to how to raise more money for city government and how to spend it so as to conserve and promote vested interests; by those on the other, as to how to distribute the burden of taxation, and how to spend the income so as to render the greatest public service possible.

It is not probable that a very large proportion of the voters can altogether ignore the differences referred to, but one thing is certain the more completely these can be forgotten as affecting this election, and the more the distribution of the tax burden is kept in mind the better it will be for the city, that is, the people, of Brainerd.

The Taxpayers Association is in the field to help direct the thought along this latter line; and there is apt to be something going on in its regular monthly meeting Wednesday, March 21st at 8 p. m. in the Trades and Labor Assembly hall.

Press Committee,  
Taxpayers Association.

## POLITICAL POINTERS

The filings of Fremont Turcotte and Wm. J. Lyons as candidates for aldermen in the First ward were made with the city clerk Friday morning.

Andrew Bergland's petition nominating him for alderman from the First ward has been filed.

John Krekelberg, candidate for city treasurer, has filed his petition with City Clerk Mahlum.

Rev. Eloy Carlson, candidate for the board of education in the Fifth ward, has filed his petition.

The petition nominating Dr. R. A. Beise for mayor to succeed himself is being circulated for signers today.

The petition for the nomination of Mrs. Charles McKay for member of the board of education from the Second ward has been circulated for signers, and cards announcing her candidacy are being distributed.

## BEWARE OF FOOD FADS.

Dieting a Serious Matter, Warns the Public Health Service.

"Pray, Mr. Abernethy, what is a cure for gout?" was the question of an indolent and luxurious citizen.

"Live upon sixpence a day and earn it," was the cogent reply.

John Abernethy, second son of a Scotch-Irish family, born April 3, 1764, a physician of rare discernment, a surgeon of great skill, a lecturer and teacher of dramatic magnetism, never said a better thing in his life. It is particularly apt in this country, where the sin of overeating is far more common than the sin of overdrinking. Gluttony, always a fault, is all the more glaring in a land where a plentiful food supply permits it to be more general. The sallow, fat cheeks, the aching joints and irascible temper of the prosperous overfed are far too common. Abernethy said to one such the Duke of York, by the way, "Cut off the supplies as the Duke of Wellington did in his campaigns and the enemy will leave the citadel."

Diet, however, is a really serious matter, and many people suffer as much from dietary eccentricities and food fads as from actual disease. The average individual can eat good, plain, wholesome food in moderation all his life without ever being aware that he has a digestive apparatus. Starvation to cure a fancied ailment or to reduce an expansive waist line has shortened many lives, just as indiscretion in the opposite direction. Certain diseases do require a particular diet, but this should be chosen by a physician of skill and not self prescribed. The self prescriber often has a fool for a patient. — United States Public Health Service Bulletin.

## SUGGESTIONS FOR AVOIDING THE WAR

Many of Them Pouring In on Administration.

## GERMANY IS INDIFFERENT

She Could Pursue Submarine Warfare Even More Relentlessly if We Entered Conflict, Say Some—Our Navy Will Be Second to None—Congressional Record Suffers.

By ARTHUR W. DUNN.

Washington, March 16.—[Special.]—In the efforts to keep out of war with Germany a great many suggestions have been made to the administration and to the senators who have remained for the special session. Quite a number of men have presented statements to the effect that Germany is somewhat indifferent as to whether or not the United States should enter the war on the side of the allies. It has often been said that it will not make much difference to Germany one way or the other whether the United States is in or out of the war, as it would take a long time for the United States to become an effective opponent of Germany. Even in the event of this government sending troops to Europe, which is not likely, it would take many months to train and equip an army.

## Why Germany Is Indifferent.

One of the senators who helped to defeat the armed neutrality bill in the Sixty-fourth congress has been informed that one reason why Germany is indifferent to any action which the United States may take is on account of the peculiar conditions of submarine warfare. The danger for the submarine is at the moment that its periscope shows and for the brief time in which it comes to the surface for the purpose of ascertaining the position of a ship and also to ascertain its nationality. In case the United States enters upon a war with Germany the submarine will not wait a moment to determine the nationality or character of any ship that is about, but as soon as the submarine can get the position of a ship it will launch its torpedo without endangering itself.

For that reason it is said that Germany can carry on a more ruthless campaign against shipping if she does not have to consider the rights of neutrals, which will be the case if the United States enters the war.

## The Condition in England.

The same senator was informed that England has less than thirty days' food supply, and that in case the Germans are able to use their 200 new submarines to such an extent as to sink vessels which are carrying food supplies to England that it will not be very long before England will be in a serious condition.

It must be remembered that all these statements are of pro-German view, and that the senator who was informed of these things was one of those who bitterly antagonized the plan of the president for arming merchant ships at the present time.

Whether or not the United States becomes involved in the war the situation is becoming more and more complicated and much more interesting from every point of view.

## Navy Second to None.

When the present naval program provided in the last two bills is complete the United States will have a navy second to none. Senator Swanson of Virginia, more than any other one man, is responsible for this result. Owing to the enfeebled condition of Senator Tillman, who is chairman of the senate committee on naval affairs, Senator Swanson has had charge of the naval appropriation bills in the senate. Working with Senator Lodge of Massachusetts the Virginia senator was enabled to bring out in the two sessions of the Sixty-fourth congress naval bills of splendid possibilities and which insure a great navy for the United States in the future.

## Result of Filibuster.

One result of the filibuster was the defeat of the deficiency as well as several other appropriation bills, and on that account the government printing office had to lay off all of the employees working on the night shift. As a consequence the Congressional Record, which is usually printed at night, is not printed until the next morning. This is not such a very great loss, but it is somewhat inconvenient to those who depend upon this valuable publication for the proceedings of the senate in its present extra session.

## Result of Long Service.

Senator Warren of Wyoming is the ranking Republican on four very important committees, the result of his long service in the senate. They are appropriations, agriculture, military affairs and public buildings. The first three handle appropriation bills and the latter the public building bill. By reason of his position Warren is a conferee on all bills handled by these committees, and it is in conference between the two houses that legislation is made.

Senator Penrose of Pennsylvania is the ranking Republican on finance, naval affairs and postoffices. Senator Lodge of Massachusetts is the ranking Republican on foreign relations and immigration.

## Village and Twp. Elections

Village and township elections were held in Crow Wing county on Tuesday, March 13. Snow blockaded roads have caused delay in receiving returns at the county auditor's office. Here are some of the elections:

## Jenkins Village

The election held in Jenkins Tuesday was a warm one. There were two tickets out, Caucus and Independent. When the polls were closed and the votes counted, it proved to be a landslide for the caucus ticket. Following is the vote:

Mayor—C. B. Whitney 33.  
Trustees—A. C. Thompson 26, H. Stade 32, D. Ritchie 24, Wm. Hardy 7, W. A. Curo 7, E. T. Jensen 1.  
Treasurer—J. G. Hammer 26.  
Justices—C. E. Kephart 32, E. T. Jensen 6.  
Recorder—Leo Walton 33.  
Constable—H. Stade 26, Bryant 6.

## Jenkins Town

Supervisor 3 years—E. R. Benson 48; for 2 years—Leo Walton 48.  
Town Clerk—J. C. Burchett 35, S. C. Freeman 13.  
Treasurer—D. Ritchie 39, J. L. Rush 1.  
Assessor—H. H. Burchett 40, Chas. Andrews 5.  
Justices—C. B. Whitney 34, J. L. Rush 34, C. E. Kephart 13, J. P. Gorst 1.

## Backus

President of the council, E. E. Griffith; trustees, W. E. Cox, E. M. Grimes, R. G. Staede; recorder, C. W. Olson; treasurer, J. W. Bailey; assessor, J. H. Hayes; justice of the peace (1 year) A. O. Miller, justice of the peace (2 years) J. P. Saunders; constable, C. F. Rice.

## Soap an Antiseptic.

Some medical authorities, explaining the abatement of epidemic diseases in recent years, are sufficiently free from professional ties to attribute this betterment of conditions not to medical science, but to the increased use of soap and water. Many medical authorities hold the opinion that with a clean house and a clean person no one need have much fear of infection. A writer in the New York Medical Record says: "Soap is now recognized to be antiseptic and to be efficacious must produce a lather. Bacteria rubbed into soap or dropped on its surface are incapable of multiplication. The typhoid bacillus is very sensitive to soap, being killed by a 5 per cent solution in a short time. More than half the total number will die in a minute. The thorough use of a pure potash soap is not only a mechanical method of cleansing, but is an active favor in cutting down germ life."—Exchange.

## "PULL ILLINOIS OUT OF MUD."

Slogan Used to Push Good Roads Movement to Fruition.

Indications point to an awakening on the part of the people of Illinois to the necessity of improving their state roads, says the official publication of the Lincoln Highway association. In consequence "Pull Illinois out of the mud" is a widely used and significant phrase at the present time. The expression is more than a catch phrase in that it graphically describes an actual and lamentable condition now existing.

An endeavor is now under way to bring the matter to the attention of the members of the state legislature by petition, these petitions urging the legislature to pass a bill calling for a special election in Illinois for the purpose of voting on a \$10,000,000 bond issue for the building of permanent hard surfaced roads. It is further set forth in the petition that the roads to be so improved should be transverse roads, and it is recommended that the money be expended upon the Lincoln highway, the Egyptian trail and the Big Four trail. Two of these roads—the Lincoln highway and the Big Four trail—run east and west across the state, the Lincoln highway in the northern part and the Big Four trail in the southern, and the Egyptian trail runs at right angles to them from Chicago to Cairo.

The heavy traffic carried by the Lincoln highway in the last two years and the many improvements made along that route in consequence, not only in Illinois, but entirely across the country, have brought home the need of logical road improvement.

## Why Japan Cannot Be Starved.

Two of the most interesting sights in Tokyo are the fish market at Nihombashi and the Mitsukoshi department store, very near the Billingsgate of Tokyo. Nihombashi is not only the geographical center of Tokyo, but of Japan, according to the Japanese, who ought to know. Here is situated what is probably the largest fish market in the world. There is every kind of fish a man could mention and a few thousand other varieties. Some big fellows cut up into great steaks, weighing ten pounds or so, and there are little ones which would make good minnow bait, if one could find a hook small enough not to mangle them. I think that in certain sections they must use a chamois skin for a fish net and save everything that does not pass through the pores. Until the sea dries up around Japan the islands will never starve.—Christian Herald.

## Others Have Had the Same Desire.

Two high school girls came into the criminal courtroom a few days ago just after a case had been tried and the jury had been locked up in the jury room for deliberation. "May we listen to this case?" one of the girls asked an officer of the court. "They just finished the case," replied the official, "and the jury is now debating what its verdict should be." "May we go and listen to the jury debate?" they asked. And then the official enlightened them on one phase of the jury system.—Indianapolis News.

## Real Life Centers in the Home-- Make the Home Beautiful

"That's what we want to do," you say, "but it costs too much."

Now wait a minute.

Isn't it true that nothing should be too good for the home? Haven't you often

heard of fathers and mothers who skimmed on home attractions and literally drove their children to look elsewhere for attractions? Did it pay?—decidedly not.

Even if you had to spend twice as much for a home of beauty as you would for an unattractive house it would pay you well in many ways but you don't have to do that any more.

"Ye Planry" Home Designs which we offer you without charge are prepared by America's foremost home architects and they have designed them with two big ideas always in mind.

1st. Homes of beauty inside and out.

2nd. Homes that could be built at low cost. And they have succeeded wonderfully as you will admit when you see the photographs and get the price at which they can be built right here in Brainerd.

If the idea of owning a beautiful home appeals to you at all we know that one or more of our "Ye Planry" designs will look mighty good to you and the price will be so attractive too that you will decide to build one this year.

Come and see this new service. Bring your wife along.

## NORTHERN PACIFIC RAILWAY

OFFICE OF FIRST VICE PRESIDENT

St Paul, March 16, 1917

All train, enginemen and yard employes of the Northern Pacific Railway in the gravest period of National danger which has ever threatened our country through the authority conferred upon the head of your organizations holding contracts with this Co. are reported to have ordered you to leave the Company's service.

In the conference at New York on March 14th you were offered all the benefits of the Adamson law should it be held constitutional by the Supreme Court of the United States. The question of its interpretation to be determined by the Committee of which General Goethals is a chairman, or in the event that the law should be held unconstitutional, the same Committee to determine the whole question of your hours and wages. You were offered these adjustments as of January 1st, 1917. The extra pay of which you might be entitled thereunder being allowed you as omitted time. This offer was declined in your behalf, and is reported that you are now being ordered to strike on account of the authority which you conferred upon the officers of your organization in the vote taken nearly a year ago. Certainly no fairer proposal could have been made by the railway managers and to grant more would be yielding to force without regard to fair play. Employes of the Northern Pacific Railway need not strike in order to secure fair treatment now or at any other time. Any controversy which may arise between officers and employes of this company can be settled without recourse to force.

It has been said by the Press that the train, engine and yard men employes on some other lines will not be affected by the strike order. I cannot not believe that this is either because of greater loyalty to their employers, or because they are more patriotic than are you. I trust that you will take no hasty, ill advised or unnecessary action which will bring inconvenience and perhaps more suffering to large numbers of those who are dependent upon our lines for their very subsistence. I urge you all at this time of the Country's need not to be led from what you know is your duty to your country, your families, to the Northern Pacific Railway.

## GEO. T. SLADE

1st Vice Pres.

## HEROES OF THE SHINING RAIL

Engineers and Firemen, Conductors and Trainmen, Breaking Trail to Reach Brainerd

### SEVEREST WEATHER OF WINTER

Rogers Snow Plow Run to Little Falls, Extra from Duluth Bucking Drifts for Passenger

Heroes of the rail are the engineers, firemen and conductors and trainmen bucking the snow drifts on the Northern Pacific and Minnesota & International railways and endeavoring to restore communication with Brainerd.

The first passenger train in was the Minnesota & International in the morning. After hours of delay they started out this afternoon for St. Paul. On the head engine, No. 422, equipped with snow plow were Engineer Ben Negus and Fireman Chas. Hoglund. On the second engine, No. 690, were Engineer Charles Mackner and Fireman Ed. Farley. The train equipment consisted of a baggage car, smoker, two sleepers and a caboose.

The first train on the Northern Pacific from Duluth in the last 24 hours arrived at 12:30 and was an extra. The head engine, No. 1605, had a snow plow and carried Engineer W. S. Tears and Fireman H. Brown. The second engine, No. 635, carried Engineer Albright and Fireman H. L. Taber. Between engines was a car of coal and at the tail end a caboose. They bucked drifts from Duluth to Brainerd.

The passenger from Duluth arrived at 12:45 p. m. In Engine No. 2397 were Engineer Frank O'Connell and Fireman C. J. Lenstrom. The second engine, No. 217, carried Engineer Hank Young and Fireman H. J. Frisk.

No passenger train has arrived from St. Paul since 2 p. m. Friday. The night train stuck in a drift near Clear Lake south of St. Cloud. A Rogers snow plow was operated between Brainerd and Little Falls to clear out drifts, there being especially heavy ones at Fort Ripley. Engine No. 2354 carried Engineer Riley and Conductor Hall had charge of the extra.

### DEATH MRS. F. G. SUNDBERG

Had Been a Resident of Brainerd 35 Years, Died of Pernicious Anemia on Friday Night

Mrs. Caroline Sundberg, widow of F. G. Sundberg, age 69, residing at 419 Bluff avenue, died Friday night of pernicious anemia, having been sick over a year. She had been at Rochester for medical attendance where everything possible was done to save her, transfusion of blood being resorted to.

Mrs. Sundberg was widely known in the city for her kindly, lovable qualities and was a half-sister of Congressman Sidney Anderson, of Winona. She leaves five sons, Fred and Hugo Sundberg of Brainerd, Axel of Marquette, Mich., Richard of Texale, Texas; Oliver of International Falls; and one daughter, Mrs. R. L. Hughes of Duluth. Her husband passed away in January, 1889.

She was a member of Court Magnolia, United Order of Foresters and the Pythian Sisters, and until her illness kept her home had been a faithful attendant at the Episcopal church. The funeral will be held from the D. E. Whitney chapel, but the date cannot be set until all relatives are communicated with.

### PILLAGER NEWS ITEMS

(Herald)

## REOPENING IDEAL CAFE

Mr. and Mrs. W. T. Larrabee Proud of Their New Restaurant, Corner 7th and Front

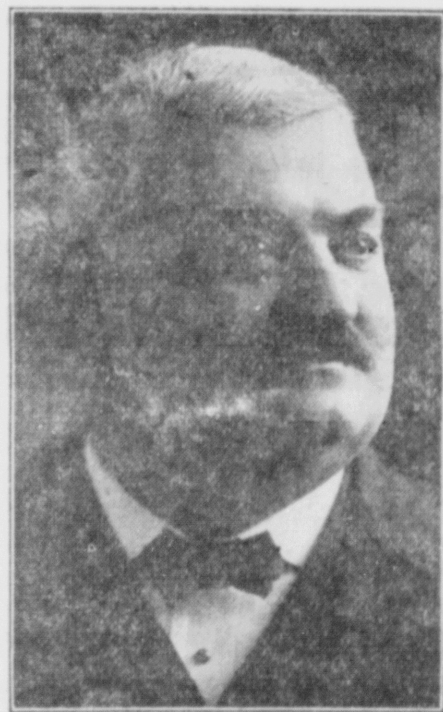

### SERVE SUPPER ON SATURDAY

Usual Sunday Luncheon from 12 to 2:30, Sunday Dinner from 6 to 9 P. M.

In spite of a fire which swept away hotel and nearly all fixtures, in spite of other troubles, W. T. Larrabee and his estimable wife are optimists as much as ever and with commendable energy and sacrifice have again established a cafe, the Ideal, southwest corner of Seventh and Front streets, and in a building remodeled to suit their needs have opened their restaurant, serving the first supper on Saturday evening.

MRS. W. T. LARRABEE

W. T. LARRABEE

On Sunday from 12 to 2:30 o'clock the regular Ideal luncheon will be served and in the evening, the Sunday dinner, from 6 to 9 p. m. Cuisine and service are such that the large clientele enjoyed by Mr. Larrabee will be quickly regained.

The main floor has been partitioned off with a lunch counter near the front, all in oak finish. The center room makes a cosy dining room finished in mission style. Four booths have a capacity of six diners each. The Ideal can seat comfortably and serve expeditiously at one time over 50.

The kitchen has a bright new range, latest kind of steam table, ample store room attached, with a built-in ice box and coal chute near by. Everything is a model of convenience and as clean as a Dutch housewife's kitchen.

Many dinner parties are being formed and table reservations for Sunday are being engaged in advance. Many theatre parties will be at the Ideal after the "Bird of Paradise" show.

## ELECTRIC GARAGE NEW GENERATOR

George Johnson, Proprietor, Installs Generator Capable of Taking Charge of 80 Batteries

### LOCATED AT 905 LAUREL STREET

Willard Service Station Does an Increasingly Large Business, Giving Satisfaction

George Johnson, of 905 Laurel street, proprietor of the "Electric Garage," Willard service station, has added a new motor generator set of two and a half KW, with a capacity of taking care of eighty batteries. The former equipment handled but ten batteries at a time.

A force is employed repairing old batteries. At Ironton Mr. Johnson has another station which takes care of much range business, the capacity of the equipment there being 24 batteries at one time.

This is the time of the year when all automobile owners are interested in getting their machines in first-class shape.

The first thing that the owner of a new automobile should do is to go to the Battery Service station and let the battery expert test his battery, according to Mr. Johnson, the local Willard expert. He gives the following reasons for this.

"The battery really commences to wear the instant that it is assembled. As long as the plates are in contact with the electrolyte, the battery is slowly discharging itself.

"If, therefore, an automobile is a long time in transit from the manufacturer to the dealer and then is a long time in the hands of the dealer it is entirely possible that the battery may have become considerably discharged. This slow discharge is perfectly natural. Before the car owner puts it to hard usage, he should have it fully charged. If this is once done, the generator should keep in that condition.

"It is to prevent the motorist starting out with a half charged battery when he expects a fully charged one that we advise all new car owners to have their batteries tested immediately.

"This step is really more than just seeing that the motorist gets the full value for the money spent on his machine. It is really the first step in assuring him a long and useful life of service from his battery, for if the battery starts its life fully charged and then is closely watched by the owner during the first three months of its life, the odds are a thousand to one that it will give little trouble. If, on the other hand, it goes into commission half charged, this condition gets worse and worse until finally the battery is thoroughly starved and the owner thoroughly disgruntled. This starved condition is particularly bad, for no amount of charging at the Service Station will put the battery back in the excellent condition in which it was at the start."

### GONE FOR GOOD

Results That Last Are What Appeal to Brainerd People

Kidney sufferers in Brainerd want more than temporary relief.

They want results that last—Results like Mr. Wick tells about. His was a thorough test.

Three years is a long time. Doan's Kidney Pills have stood the test and stood it well.

Why experiment with an untried medicine?

People here in Brainerd have shown the way.

Read Mr. Wick's story: William Wick, R. F. D. No. 4, W. Brainerd, says: "I had kidney and bladder trouble and nothing seemed to benefit me. My back was so bad at times that I couldn't straighten after I had been sitting for awhile. I got Doan's Kidney Pills at H. P. Dunn's Drug Store and they fixed me up in good shape."

A PERMANENT CURE

Over Three Years Later Mr. Wick said: "I am glad to say the cure Doan's Kidney Pills made has been permanent."

Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Wick has twice publicly recommended. Foster Milburn Co., Props., Buffalo, N. Y.—Adv't.

Lingering Coughs are Dangerous

Get rid of that tickling cough that keeps you awake at night and drains your vitality and energy. Dr. King's New Discovery is a pleasant balsam remedy, antiseptic, laxative and promptly effective. It soothes the irritated membrane and kills the cold germs; your cough is soon relieved. Delay is dangerous—get Dr. King's New Discovery at once. For nearly fifty years it has been the favorite remedy for gripe, croup, coughs and colds. Get a bottle today at your druggist, 50c—Adv't.

## "BIRD PARADISE" CURTAIN 8:15

In spite of snow and blockades, "The Bird of Paradise" will make Brainerd in plenty of time for a good performance tonight.

The curtain will rise at 8:15 P. M. The seat sale has been very good. The same company playing Brainerd tonight will play a week in Minneapolis.

## ELECTION AGAIN AT PERRY LAKE

At Perry Lake 21 votes were cast at the township election and but 19 voters were present. So they decided to have another election March 23 and set things right.

### NOT PLAGUE VICTIM

Annie C. Smith, Daughter of Howard M. Smith, Died from Blood Clot on the Brain

Following an autopsy held at St. Paul, after which Dr. John E. Hynes declared that Annie Caroline Smith, 11 years old 833 Walker Avenue, St. Paul, had died of a blood clot on the brain, caused by influenza, and not infantile paralysis, the parents, Mr. and Mrs. Howard M. Smith, former residents of Brainerd, arranged for a public funeral.

Services were held from the undertaking rooms of Arbuckle & Co., 1537 University Avenue, and the Rev. John Pemberton officiated.

### WILL PLAN GARDENS

City Development Committee of the Chamber of Commerce Recommending Commendation

The city development committee of the Chamber of Commerce will meet at the club rooms early in the week to complete plans for the campaign to encourage the cultivation of more garden plots and flower beds and to arrange for the free distribution of seeds etc.

The plan as outlined in the Dispatch some days ago has met with prompt approval on the part of the public and many inquiries have been received at the secretary's office for vacant lot assignments, seeds and general information.

The number of lots listed thus far is small but the committee plans a systematic campaign to secure privileges of every lot in the city which can be made available for garden purposes and these will be listed, assigned and seeds in many cases furnished.

The seeds secured from Washington are being tested to insure their germinating properties and others will be purchased, with an idea of helping all who are unable to buy seeds. If the plan received the cooperation it is felt that it should, Brainerd will present a very attractive appearance this summer and the high cost of living will also receive a body blow not easily counted in dollars and cents but which can be made of surprising proportions. This plan is being adopted by other communities and this city was one of the first to take it up, thanks to the committee of the Chamber of Commerce.

All who have vacant lots they expect to plant or which they will agree to permit others to cultivate are urged to notify the secretary of the Chamber of Commerce at once.

### OPINION IN CASE

Reasons Advanced by Judge W. S. McClenahan on Removal of "Non Alco" Case to Federal Court

On petition of the government, as represented by United States Attorney Alfred Jaques, the case of the Fitzgerald Brewing Co. vs. Edward Feld and others, was according to the decision of Judge W. S. McClenahan, of the district court, ordered removed to the jurisdiction of the United States district court.

The case centers on the product, "Non Alco," manufactured by the Fitzgerald people and which shipment and sale of such beverage into and in Indian territory was checked by special officers of the Indian service on the grounds that it contained alcohol.

The Fitzgeralds secured an order restraining the officers while the case was threshed out, as they maintain that "Non Alco" contains no alcohol, is not made from malt and is non-intoxicating.

In his memorandum concerning the question of removal of the case from state to United States court, Judge McClenahan says:

"The disposition a state court may make of a motion to remove an action to the federal court, is comparatively unimportant; the final decision rests with the federal court in any event."

## Complete Course in Vocal Training

By Oscar Saenger

## Twenty Lessons on Ten Victor Records

We are now enabled to offer you something for which there has long been a big demand—practical vocal training by the use of the Victrola.

Mr. Oscar Saenger, of New York City who has been so successful in developing operatic, oratoria and concert singers, has made ten double faced records, which will permit of a clear understanding of the art of singing without previous training.

We shall be pleased to demonstrate this course to any interested. The complete set for \$25.00. In our Victrola department.

"But in view of the peculiarly inconclusive character given to the action of state courts in these matters, it has not seemed necessary for me to go very far in this investigation. I have therefore transferred it to a more authoritative tribunal."

## DODGE BROTHERS MOTOR CAR

Consult the impression uppermost in your mind and you will find that you think of this car as very carefully and very conscientiously made.

This very general and instinctive feeling is of course a reflection of the actual facts.

People think of the car in this light because of their high opinion of Dodge Brothers as manufacturers.

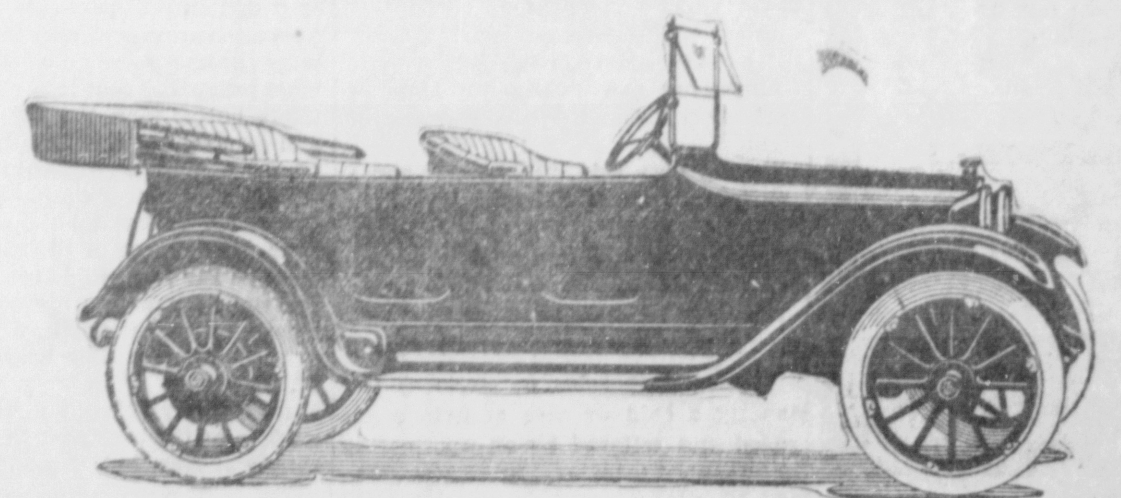

That good opinion is justified by the performance of the car, by its economy and efficiency, and by the fact that even the first two year's very large production did not develop a single fault.

It will pay you to visit us and examine this car.

The gasoline consumption is unusually low. The tire mileage is unusually high.

Touring Car or Roadster, \$785; Winter Touring Car or Roadster, \$950; Sedan \$1185.

Uric Acid!

Ever since the discovery of Scheele in 1775 that uric acid was found within the body—most eminent physicians agree that rheumatism is caused by it; also many distressing symptoms as headache, pain in back, stomach distress, swollen feet and ankles, gout, etc.

It was Dr. Pierce of the Invalids' Hotel, Buffalo, N.Y., who discovered a new agent—called Anuric, a harmless remedy that if taken before meals will carry off the uric acid from the system and in this way the pains and aches, the creaky joints and all the distressing symptoms of rheumatism and other maladies disappear. You can easily prove this yourself, by obtaining Anuric at almost any drug store, or send Dr. Pierce 10c. for trial package. Try it and be convinced that Anuric is many times more active than lithia and eliminates uric acid as hot water melts sugar.

PERFECT HEALTH IS EVERY WOMAN'S BIRTHRIGHT.

Faribault, Minn.—"About fifteen years ago I caught a severe cold. Acute inflammation followed and through this I became all run-down. I was very miserable. A friend of mine had one of Dr. Pierce's Common Sense Medical Advisers. I consulted this and read in it of 'Favorite Prescription.' I got a bottle at once and two bottles completely cured me and built me up in splendid health, and since that time whenever I feel in need of something to build me up I get this medicine and it has never failed to give me relief. It is a splendid remedy for women's ailments. I heartily endorse its use."—Miss EDITH PLANTE, 14th Street and 2nd Ave.

BIG EATERS GET KIDNEY TROUBLE

Take a glass of Salts before breakfast if your Back hurts or Bladder bothers you.

The American men and women must guard constantly against kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out, they weaken from overwork, become sluggish; the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment or you are obliged to seek relief two or three times during the night; if you suffer with sick headache or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys; to neutralize the acids in the urine so it no longer is a source of irritation, thus ending bladder disorders.

Jad Salts is inexpensive; cannot injure, makes a delightful effervescent lithia-water beverage, and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time.

"Another Fighter," Says Jim Flynn

JIM FLYNN AND JIM FLYNN, JR.

"Ladies and gentlemen," said Jim Flynn, the battler, who is now recognized as the toughest and hardest pugilist in the ring, "let me present to you Jim Flynn, Jr., the greatest battler for his years and weight the American ring knows. For every year of his life he is going to continue to hold that title. By the time he is twenty-one he will be the heavyweight champion of the world—if the mollycoddles don't kill the grand old game. For many years, seventeen now, I have been fighting for the heavyweight championship. I never missed any of them, and few of them missed me. I don't bar any

ST. CLOUD WINNERS SIXTH DISTRICT

Crosby, Minn., March 16.—St. Cloud beat the Bemidji basketball quint 36 to 16 and won the sixth district championship at the high school auditorium at Crosby last night.

Constipation Makes You Dull

That draggy, listless, oppressed feeling generally results from constipation. The intestines are clogged and the blood becomes poisoned. Reverse this condition at once with Dr. King's New Life Pills; this gentle, non-gripping laxative is quickly effective. A dose at bedtime will make you feel brighter in the morning. Get a bottle today at your druggist. 15c.—Advt.

The Hague Tribunal.

The nations represented in the permanent court of arbitration at The Hague are Argentina, Austria-Hungary, Belgium, Bolivia, Brazil, Bulgaria, Chile, China, Cuba, Denmark, Colombia, Dominican Republic, Ecuador, France, Germany, Great Britain, Greece, Guatemala, Haiti, Italy, Japan, Luxembourg, Mexico, Montenegro, the Netherlands, Nicaragua, Norway, Panama, Peru, Portugal, Romania, Russia, Salvador, Serbia, Siam, Spain, Sweden, Switzerland, Turkey, the United States, Uruguay and Venezuela.

Wasteful Americans.

"Of all the lands that I have visited," says Sir Rabindranath Tagore, the poet and philosopher of India, "the United States is the only one where a person eats the inside of a slice of bread and throws away the crust."

It is a keen and penetrating remark which calls attention to a habit that undoubtedly injures the health of the American people more than they know and that is wasteful to the last degree.—Youth's Companion.

Where They Parted.

Meyerbeer and Rossini, in spite of all their rivalries, were the warmest of friends.

Rossini once said, "Meyerbeer and I am never agree." When some one in surprise asked why he replied, "Meyerbeer likes sauerkraut better than he does macaroni."

Stiff, Sore Muscles Relieved

Cramped muscles or soreness following a cold or case of grippie are eased and relieved by an application of Sloan's Liniment. Does not stain the skin or clog the pores like musky ointments of plasters and penetrates quickly without rubbing. Limber up your muscles after exercise, drive out the pains and aches of rheumatism, neuralgia, lumbago, strains, sprains and bruises with Sloan's Liniment. Get a bottle today. At all Druggists 25c.—Advt.

one because of race, color or previous condition of servitude. I fought Sam Langford, and I fought Jack Johnson, whom you know I licked at Las Vegas, N. M. I fought Vari Morris when he weighed seventy pounds more than I did, and I leave it to you if I didn't beat him. Now Jess Willard, the champion, won't fight him. I'd rather fight than eat, and I'd rather eat than be president.

"I shall fight on as long as there are white hopes, and when I am done Jim Flynn, Jr., will pull on my old gloves and continue the good work of killing the white hope crop."

CUSTARD PIE COMEDY.

Its Vogue in the Movies Due to Our Primitive Sense of Humor.

After the comic "pursuit" picture movie directors were at their wits' end until the most famous impresario of knockabout fun invented the motif of the custard pie. A custard pie bombardment has two very strong elements of humor concealed in its action. One is surprise, and the other is messiness. There are lots of nice people who think it is vulgar and outrageous to laugh at such elemental humor, yet there is something fundamentally funny in seeing a body's face projected through the soft goo of a custard pie.

If you do not believe this try it some day on your neighbor when he pushes his head over the fence to say good morning or to borrow the lawn mower. Hit him full on, butter side out, with a custard pie and see whether the result is not funny or tragic. A half of ten divides the two. If you make this experiment you will learn that only a complete bullseye is funny. If the pie should hit on the edge or only partially break, the joke is held in suspense and spoiled, but if you "moon him" I assure you the neighbors for miles round will all laugh. My, the number of custard pies that we have wasted while one of the comedians perfected his technique and aim! A good custard pie thrower is invaluable in the comics. It is queer that the pie must be custard.

This same director also invented the comedy police, who have had more trouble with the real police than any actors on the screen. The humor of the wild exploits of these volatile officers of the law is based upon two motifs. One is the collapse of dignity, and the other is a kid desire in the hearts of nearly all of us to see authority get it in the neck.—Rob Wagner in Saturday Evening Post.

Fury of Sunstorms.

How can we, who are bewildered and appalled by the fury of our planet's cyclones and volcanic eruptions, form a conception of the terrible energy of natural operations of the sun? Newcomb suggested that if we call the solar chromosphere an ocean of fire we must remember that it is an ocean infinitely hotter than the fiercest furnace and as deep as the Atlantic is broad. If we call its movements hurricanes we must remember that our hurricanes blow only about a hundred miles an hour, while those of the chromosphere blow as far in a single second. There are such hurricanes as, coming down upon us from the north, would in thirty seconds after they had crossed the St. Lawrence river be in the gulf of Mexico, carrying with them the whole surface of the continent in a mass not simply of ruin, but of glowing vapor.

All Bills Look Alike to Him.

Collector—Did you look at that little bill I left yesterday, sir? House Member—Yes; it has passed the first reading.—Boston Transcript.

Every production of genius must be the production of enthusiasm.—Disraeli.

LAST DEBATES OF CLOSING SESSION

Interesting Incidents Crowded Into Them.

ALSO TRIVIAL MATTERS

Three Illinois Members of the House Who Were Much in the Limelight Will Not Return to Washington. Senator Kenyon Stands by the American Cow.

By ARTHUR W. DUNN.

Washington, March 16.—[Special.]—Into the crowded days of the last session of congress, so recently closed, were injected many interesting incidents which have since appeared in belated numbers of the Congressional Record. But it is rather surprising that at a time when the daily sessions occupied from fourteen to eighteen hours so much of a trivial and inconsequential nature was injected into the debates.

In the senate much of the talk was designed for delay and was a filibuster pure and simple. That always happens at the close of a short session. It is a part of the game where one man or a group of men undertake to force certain concessions or block legislation.

In the house, where filibustering is no longer successful, it seems absurd that so much time is taken up with trivial affairs.

Almost Infinitesimal.

Along late one night a big appropriation bill was held up while prominent men in the house discussed the management of the house office building and employees, a matter wholly in control of a competent committee. Those who complained heard one man who was satisfied, Cyclone Davis of Texas, who saw the end of his day in connection with the payroll. Said Cyclone:

"It may be that men who have such luxurious surroundings at home, who have such esthetic taste at home, would find serious objection to the situation in the house office building. Not so with me. I step on magnificent carpets, I walk on marble, I bathe in basins with a choice as to waters and dip the liquid soap about and have all kinds of perfume. I have no objection to find about the situation."

Would Not Criticize.

Minority Leader Mann was the member who secured the increase for clerks. If he had abandoned the fight at any time it would have been lost. One day when conferees of the house showed a disposition to surrender to the senate Mann said:

"This is no compromise. It is an ignominious, disgraceful surrender, with absolutely no excuse for it. The house took a vote yesterday, 282 to 61 in favor of the house provision, and walking out of this chamber the conferees on two bills, without discussing the question, without attempting to get a compromise, walked over to the senate and abjectly surrendered."

The house applauded, and Mann, who likes to remain on good terms with members even when he rebuffs them, added, "I am not going to criticize the action of the conferees," which caused general laughter.

Standing by the American Cow.

Opposing the Underwood oleomargarine amendment Senator Kenyon of Iowa said there was every reason why senators should stand by the American cow. "Senator Page of Vermont," he said, "in giving his experience tells of rising at 4 o'clock in the morning, and Senator Warren of Wyoming goes him one better by telling about getting up at 3 o'clock to do the milking. I never got up earlier than 5 o'clock."

Then Penrose of Pennsylvania wanted information and asked:

"Will not that pastoral condition which the senator can look back to with such pleasure be largely eliminated by the machinery which milks the cows?"

"I will say to my farmer friend from Pennsylvania," replied Kenyon, "that artificial milking has not been a success. So the senator from Wyoming may still have to rise in the early morning hour."

Were In Evidence.

In the new congress Illinois will not have three men who made themselves somewhat conspicuous while they were members, James T. McDermott, Frank Buchanan and Clyde H. Tavenner. McDermott came in for much rather unenviable notice in connection with the Mulhall charges. Buchanan as a labor leader and pacifist reached a point where he came into collision with the federal authorities in New York. Tavenner as a prolific writer, congressional publisher and pronounced pacifist attained an extensive reputation throughout the country as well as in the house.

Lost an Educator.

By redistricting the state and abolishing the member at large Alabama has caused the loss of an educator in the house. John W. Abercrombie made a specialty of educational affairs while a member of congress. By adding a new district, the Tenth, Abercrombie has been let out. The new representative from the Tenth district is W. B. Bankhead, son of John H. Bankhead, who was in the house for twenty years and is now the senior senator from Alabama.

Fair List Prices Fair Treatment

Fair Treatment Knows No Size In GOODRICH BLACK SAFETY TREAD TIRES

GOODRICH'S FAIR TREATMENT

backs up Goodrich Tires, big and small, with the same fairness to all.

Either the tire, whatever its size, makes good the Goodrich pledge, or Goodrich wants it back to square its shortcomings.

Goodrich workmanship turns forth tires, little and big, with the same watchful pride and honor. All are the best fabric tires that can be made.

They are equally obligated to fulfill the high standard of service Goodrich sets for its tires.

You take no chance with SIZE or ANYTHING ELSE in a Goodrich Tire.

ART OF A WOMAN.

Really More Subtle Than the Art of a Mere Artist.

Technic is the very life and soul of engraving. To the engraver nothing is truer than Francois Millet's saying that "art is a calculation."

Take the calculation involved in the art of making a lady's dress, a thing of beauty, though but a fleeting joy, as all joys are. The value of contrasted textures is here well displayed. The modiste has a host of materials from which to choose; but, knowing the value of restraint, she is wisely sparing and judicious in their use.

Say it is a creamy white robe. The mellow glow of satin or silk upon a setting of soft merino or serge enhances by their opposition the qualities of each. A necklace of pearls in juxtaposition with cloudy tulle or delicate lace gleams with a distinguished radiance, while the shadows beneath the brows and nose, softened by the reflection from the light material, are much less pronounced than they otherwise would be, and the eyes, catching up the light, sparkle with a greater brilliancy. If there are any wrinkles in the face they disappear, or, if not, they are greatly modified, and the face assumes a fairer and more youthful aspect.

I have seen a narrow strip of black velvet ribbon encircling the neck of one whose face would, without this startling device, have shown deep lines, as in ladies of character and experience. But by this artful contrivance the wrinkles vanish. How is it possible to discover the wrinkles when this far deeper wrinkle holds the eye?

Millet counsels the artist to hide his art behind his canvas. So the engraver hides his behind his block. But the feminine arts are past finding out; no one knows where they are hidden.—Timothy Cole in Century.

Sharpness of Madmen.

In Sir William Butler's autobiography there is an amusing story about six insane soldiers who escaped while the corporal who had brought them on board the troopship left at Durban and who mingled with the 1,800 sane men on the decks. The problem of the voyage was to find who were the six madmen. By the time the boat reached Cape Town twenty-six men were officially under observation, and not one of the six was among them.

In the end the crazed half dozen were identified as those who had taken an especially eager part in the lunatic hunt.

Regatta on Pacific Coast April 14.

The Pacific coast regatta, the winner of which is to row at Poughkeepsie, will most likely be held on April 14. Washington wants it set for April 7, but Stanford and California favor the later date on account of better tide conditions. Stanford and Washington have been on the water for several weeks.
